Brief Job Description

Seeking candidates with science certification or teachers with experience in middle school science instruction. Responsibilities include teaching general science and Living Environment (or Earth Science) for students that will take a Regents exam. We have access to an experienced mentor for Earth Science who could provide curriculum, materials and guidance. The position could be expanded to full time depending on the qualifications and willingness of the candidate.

Essential Duties & Responsibilities

- Provide general science instruction for middle school students
- Provide instruction in either Living Environment or Earth Science for advanced science students
- If position becomes full time, facilitate STEM projects for middle level students
- Communicate with the principal and colleagues to meet the needs of students

Qualifications: Required Education/Experience

- Certification in Middle School Science and/or Experience teaching science in a school setting

Desired Skills

- Ability to provide child-centered instruction with a high level of engagement and passion for the subject matter
- Flexible
- Strong communication and organization skills
- Empathetic, friendly and someone that makes learning fun!

How to Apply: By Mail E-Mail Posting will remain open until position is filled
